Notes to the Interim Financial Statements For the Quarter ended 30th Paush, 78

Shine Resunga Development Bank Limited (referred to as "the Bank" hereinafter) is a "B" class National level Development bank domiciled in Nepal, registered as a Public Limited Company under Companies Act 2063 & Banking and Financial Institution Act, 2073. The registered address of the Bank is located at Kalikanagar, Butwal 11, Rupandehi, Nepal. Shine Resunga Development Bank Limited is listed on Nepal Stock Exchange.

1. Basis of Preparation

The interim financial statements have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) issued by the Accounting Standards Board of Nepal on 20th September 2018. The disclosures made in the condensed interim financial information have been limited based on the format prescribed by Nepal Rastra Bank through NRB Directive 2078. The Condensed Interim Financial Statements comprise of:

- Condensed Statement of Financial Position
- Condensed Statement of Profit or Loss
- Condensed Statement of Other Comprehensive Income
- Condensed Statement of Change in Equity
- Condensed Statement of Cash flows
- Notes to Interim Financial Statements

2. Statement of Compliance with NFRs

The financial statements have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) and carve-outs issued by the Institute of Chartered Accountants of Nepal on 20th September 2018 on NFRS requirement, which allowed alternative treatments. NFRS conform, in all material respect, to International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

3. Use of Estimates, assumption and judgments

The Bank, under NFRS, is required to apply accounting policies to most appropriately suit its circumstances and operating environment. Further, the Bank is required to make judgment in respect of items where the choice of specific policy, accounting estimate or assumption to be followed could materially affect the financial statements. Later on this may be determined that a different choice could have been more appropriate.

NFRS requires the Bank to make estimates and assumptions that will affect the assets, liabilities, disclosure of contingent assets and liabilities, and profit or loss as reported in the financial statements.

The Bank applies estimates in preparing and presenting the financial statements. The estimates and underlying assumptions are reviewed periodically. Revision to accounting estimates are recognized in the period in which the estimates is revised, and are applied prospectively.

Disclosures of the accounting estimates have been included in the relevant section of the notes wherever the estimates have been applied along with the nature and effect of changes of accounting estimates, if any.

4. Changes in Accounting policies

There has been no significant change in the accounting policies adopted by the bank since the preparation of Financial Statement of Ashad end 2078.

5. Significant Accounting Policies

The principal accounting policies applied in the preparation of Interim financial statements applied and is in consistent with the accounting policies and method of computation followed in the preparation of annual financial statement of Ashad end 2078.

5.1 Basis of Measurement

The financial statements have been prepared on a historical cost basis, except for available – for-sale investments, assets held for sale and discontinued operations, other financial assets and liabilities held for trading and financial assets and liabilities designated at fair value through profit or loss (FVTPL), all of which have been measured at fair value.

The financial statements have been prepared on a going concern basis where the accounting policies and judgments as required by the standards are consistently used and in case of deviations disclosed specifically.

5.2 Basis of Consolidation

The Bank does not have control over any other entity for consolidation of Financial Statements.

5.3 Cash & Cash Equivalent

Cash and cash equivalent represent the amount of cash in hand, balances with other bank and financial institutions, money at short notice and highly liquid financial assets that are subject to an insignificant risk of changes in their value and used by the Bank in the management of short-term commitment.

5.4 Financial Assets and Financial Liabilities

5.4.1 Recognition

Financial assets and liabilities, with the exception of loans and advances to customers and balances due to customers, are initially recognised on the trade date i.e. the date that the Bank becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans and advances to customers are recognised when funds are transferred to the customers' account at fair value inclusive of transaction costs. The Bank recognises due to customer balances when funds reach the bank.

5.4.2 Classification

I. Financial Assets

The Bank classifies the financial assets subsequently measured at amortized cost or fair value on the basis of the bank's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

The two classes of financial assets are as follows:

i. Financial assets measured at amortized cost

The bank classifies financial assets measured at amortized cost if both of the following conditions are met:

- The assets is held within business model whose objective is to hold assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii. Financial assets measured at fair value

Financial assets other than those measured at amortized cost are measured at fair value. Financial assets measured at fair value are further classified into two categories as below:

✓ Financial assets at fair value through profit or loss

Financial assets are classified as fair value through profit or loss (FVTPL) if they are held for trading or are designated at fair value through profit or loss. Upon initial recognition, transaction cost is directly attributable to the acquisition are recognized in profit or loss as incurred. Such assets are subsequently measured at fair value and changes in fair value are recognized in statement of profit or loss.

✓ Financial assets at fair value through other Comprehensive income

Investment in an equity instrument that is not held for trading and at the initial recognition, the bank makes an irrevocable election that the subsequent changes in fair value of the instrument is to be recognized in other comprehensive income are classified as financial assets at fair value through other comprehensive income. Such assets are subsequently measured at fair value and changes in fair value are recognized in other comprehensive income.

II. Financial Liabilities

The Bank classifies the financial liabilities, other than financial guarantees and loan commitments, as follows;

✓ Financial liabilities at fair value through profit or loss

Financial liabilities are classified as fair value through profit or loss (FVTPL) if they are held for trading or are designated at fair value through profit or loss. Upon initial recognition, transaction cost are directly attributable to the acquisition are recognized in statement profit or loss as incurred. Except for particular designated as at FVTPL, the amount of the changes in the fair value that is attributable to changes in the liability's credit risk is recognized in other comprehensive Income.

✓ Financial liabilities measured at amortized cost

All Financial liabilities other than measured at fair value through profit or loss are classified as subsequently measured at amortized cost using effective interest rate method.

C. Measurement

✓ Initial measurement

All financial instruments are initially recognized at fair value plus transaction cost except in case of financial assets and financial liabilities recorded at fair value through profit or loss.

✓ Subsequent measurement

Financial assets and liabilities designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value taken directly to the statement of profit or loss. Interest and dividend income or expense is recorded in revenue according to the terms of the contract, or when the right to payment has been established.

Financial liabilities are subsequently measured at amortized cost, with any difference between proceeds net of directly attributable transaction costs and the redemption value recognized in the statement of profit or loss over the period of the borrowings using the effective interest method.

5.4.3 De-recognition

De-recognition of Financial Assets

Financial assets are derecognized when the rights to receive cash flows from the assets have expired or where the Bank has transferred substantially all risks and rewards of ownership. If substantially all the risks and rewards have been neither retained nor transferred and the Bank

has retained control, the assets continue to be recognized to the extent of the Bank's continuing involvement.

De-recognition of Financial Liabilities

Financial liabilities are derecognized when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in profit or loss

5.4.4 **Determination of Fair Value**

Assets and liabilities carried at fair value or for which fair values are disclosed have been classified into three levels according to the observability of the significant inputs used to determine the fair values. Changes in the observability of significant valuation inputs during the reporting period may result in a transfer of assets and liabilities within the fair value hierarchy. The Bank recognizes transfers between levels of the fair value hierarchy when there is a significant change in either its principal market or the level of observability of the inputs to the valuation techniques as at the end of the reporting period.

Level 1 fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable. Investment in promoter's share of quoted equity instrument has been valued at 50% of the market value of the same class of share.

Level 3 portfolios are those where at least one input, which could have a significant effect on the instrument's valuation, is not based on observable market data.

5.4.5 Impairment of Loans and Advances

The Bank reviews its individually significant loans and advances at each Reporting date to assess whether an impairment loss should be provided in the Statement of Profit or loss. In particular, the Management's judgment is required in the estimation of the amount and timing of future cash flows when determining the impairment loss.

The individual impairment provision applies to financial assets evaluated individually for impairment and is based on Management's best estimate of the present value of the future cash flows that are expected to be received. In estimating these cash flows, Management makes judgments about a borrower's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimate of cash flows considered recoverable.

Individual assessment of impairment of exposures means establishing whether objective evidence of impairment exists, estimation of the present value of future cash flows, and calculation of the value of impairment for each individual receivable from the borrower included in this assessment.

The bank has considered all loans and advances above NRs. 50 million for individual assessment of impairment. The bank determines, for each individual loan to be assessed for individual impairment, whether they expect to collect their receivables from expected future

cash flows (going concern) or from collateral realization (gone concern). If a bank identifies objective evidence of impairment, the bank indicates, at single debtor level, the most realistic sources of repayment (collection approach/strategy) based on all available information regarding such borrower's financial position and performances. The bank assesses whether collection will be made from the borrower's expected future operating cash flows (borrower continues to perform business activities — going concern) or on the basis of collateral enforcement and realization (expectation that the borrower ceases to exist — gone concern). In both cases, bank uses conservative assumptions relating to the estimation of the expected cash flows, taking into account current economic conditions and the Bank's own economic forecasts.

When estimating impairment based on collateral realization, the recoverable amount is the present value of the net inflow from collateral realization (taking into account the priority of claims), discounted by applying the original effective interest rate to the expected time to realization.

A collective impairment provision is established for:

- Groups of homogeneous loans and advances that are not considered individually significant; and
- Groups of assets that are individually significant but that were not found to be individually impaired

The collective provision for groups of homogeneous loans is established using statistical methods based on historical loss rate experience, Loss Given Default (LGD) and Probability of Default (PD) computed using the statistical analysis of historical data on delinquency to estimate the amount of loss for each class of portfolio selected on the basis of its product, risk factor, collateral coverage, exposure group etc. Management applies judgment to ensure that the estimate of loss arrived at, on the basis of historical information is appropriately adjusted to reflect the economic conditions and portfolio factors as at the Reporting date. The loss rates are regularly reviewed against actual loss experience.

In assessing the need for collective impairment, Management considers factors such as credit quality (for example, loan to collateral ratio, level of restructured performing loans), portfolio

Size, concentrations and economic factors.

To estimate the required allowance, assumptions are made to define how inherent losses are modeled and to determine the required input parameters, based on historical experience and current economic conditions. The accuracy of the provision depends on the model assumptions and parameters used in determining the collective provision.

5.4.6 Impairment of Financial Investments – Available-for-Sale

The Bank also records impairment charges on available-for-sale equity investments when there has been a significant or prolonged decline in the air value below their cost along with the historical share price movements, duration and extent up to which the fair value of an investment is less than its cost.

5.4.7 Impairment of Non-Financial Assets

The Bank assesses whether there are any indicators of impairment for an asset or a cash generating unit (CGU) at each Reporting date or more frequently, if events or changes in circumstances necessitate to do so. This requires the estimation of the 'Value in use' of such individual assets or the CGUs. Estimating 'Value in use 'requires the Management to make an estimate of the expected future cash flows from the asset or the CGU and also to select a suitable discount rate in order to calculate the present value of the relevant cash flows. This valuation requires the Bank to make estimates about expected future cash flows and discount rates and hence, they are subject to uncertainty.

5.5 **Trading Assets**

Trading assets and liabilities are those assets and liabilities that the Bank acquires or incurs principally for the purpose of selling or repurchasing in the near terms or holds as part of portfolio that is managed together for short-term profit or position taking.

Trading assets & liabilities are initially recognized at fair value and subsequently measured at fair value in the statement of financial position, with transaction costs recognized in profit or loss. All changes in fair value are recognized as part of net trading income in profit or loss as regarded as fair value through profit and loss account.

5.6 **Derivatives Assets and Derivative Liabilities**

Bank doesn't deal with any derivative financial instruments.

5.7 **Property and Equipment**

All property and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets.

Subsequent costs are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of profit or loss during the financial period in which they are incurred.

Freehold land is not depreciated although it is subject to impairment testing. Depreciation on other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

- \triangleright Building 50 Years
- Computer and Accessories 3 Years
- ➣ Furniture and Fixtures 7 Years
- > > Machinery and Equipment 9 Years
- Office Equipment 5 Years
- Vehicles 6 Years
- Leasehold 10 Years
- Other Assets 4 Years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date. The value of the assets fully depreciated but continued to be in use is considered not material.

At each reporting date, assets are also assessed for indicators of impairment. In the event that an asset's carrying amount is determined to be greater than its recoverable amount, the asset is written down immediately to the recoverable amount.

Assets with costs less than NPR 5,000 are charged off on purchase as revenue expenditure.

Gains and losses on disposals are included in the Statement of Profit or Loss.

5.8 **Intangible Assets**

Acquired Intangible Assets

Intangible assets are initially measured at fair value, which reflects market expectations of the probability that the future economic benefits embodied in the asset will flow to the Bank and are amortized on the basis of their expected useful lives.

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. Costs associated with the development of software are capitalized where it is probable that it will generate future economic benefits in excess of its cost. Computer software costs are amortized over the period of 5 years in Straight Line method (SLM). Costs associated with maintaining software are recognized as an expense as incurred.

At each reporting date, these assets are assessed for indicators of impairment. In the event that an asset's carrying amount is determined to be greater than its recoverable amount, the asset is written down immediately.

5.9 Investment Property

Land or Land and Building other than those classified as property and equipment and noncurrent assets held for sale under relevant accounting standard are presented under this account head. The Non-Banking Assets acquired by the company is classified as assets held for sale and presented under investment property.

Further land which is rented and held for capital appreciation motive is classified as investment property. Non-Banking Assets which are not intended to be sold within a period of next one year is also classified as Investment Property. The bank does not have any investment property.

5.10 Income Tax

5.10.1.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities of Nepal. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in Nepal. The liabilities recognized for the purpose of current Income tax, including fees, penalties are included under this head.

5.10.1.2 Deferred Tax Assets/Liabilities

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rate applicable to the Bank as at the reporting date which is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized where it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred tax relating to items which are charged or credited directly to equity, is credited or charged directly to equity and is subsequently recognized in the statement of profit or loss together with the deferred gain or loss.

5.11 Deposits, Debt securities issued and subordinate Liabilities

The deposits held by the bank on behalf of its customers are classified as financial liabilities and measured at amortized cost under effective interest method. The bank does not have any debt securities issued and subordinated liabilities.

5.12 Provisions

Provisions are recognized in respect of present obligations arising from past events where it is probable that outflow of resources will be required to settle the obligations and they can be reliably estimated.

5.13 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

5.13.1 Interest Income

Interest Income include interest income on loan and advance, investment securities except on those investment securities measure at fair value through profit or loss, cash and cash equivalent, due from Nepal Rastra Bank, due from BFIs, loan and advances to staff etc. Interest income on loans and advances is recognized on amortized principal which is nearer to the effective interest method suggested by NFRS. The adoption of effective interest method is not possible due to constraints of time, effort and cost in short term compared to the benefits it provides. Benefit of carve-out bas been applied to this effect. Interest of loans and advances which are significantly impaired are not recognized.

Interest income on government bond, treasury bills and bank balances are recognized under effective interest method.

5.13.2 Fees and commissions

Fees and commissions are generally recognized on an accrual basis when the service has been provided or significant act performed. Service Fee Income/Expenses are recognized on accrual basis unless it is impracticable to recognize as allowed through carve-out on NFRS.

5.13.3 Dividend Income

Dividend income is recognized when the Bank's right to receive the payment is established, which is generally when the shareholders approve the dividend.

5.13.4 Net Trading Income

Net trading income includes all gains and losses from changes in fair value and the related interest income or expense and dividends, for financial assets and financial liabilities held for trading.

5.13.5 Net income from other financial instrument at fair value through Profit or Loss

Gains and losses arising from changes in the fair value of financial instruments designated at fair value through profit or loss are included in the statement of profit or loss in the period in which they arise. Contractual interest income and expense on financial instruments held at fair value through profit or loss is recognized within net interest income.

5.14 Interest Expense

For all financial instruments measured at amortized cost, interest bearing financial assets classified as available-for-sale and financial instruments designated at FVTPL, interest expense is recorded using the EIR unless it is impracticable.

5.15 Employee Benefits

5.15.1 Retirement Benefits

The Bank has schemes of retirement benefits namely Gratuity, Provident Fund.

Retirement benefit obligations

The bank operates a defined contribution plans as provident fund contribution.

Provident Fund

For Provident Fund, the bank pays contributions to the publicly administered provident fund plans (named Employee Provident Fund) on a mandatory basis, and such amounts are charged to operating expenses. The bank has no further payment obligations once the contributions have been paid.

Gratuity

The bank has been providing gratuity as per its employee's bye laws which is in the nature of defined benefit plan therefore actuarial valuation has been conducted and provided accordingly.

Accumulated Leave

The Bank provides accumulated leave benefit under its staff byelaw. The Home Leave is accumulated up to 90 days and there is no limit for the accumulation of Sick Leave.

Accumulated leave benefits are treated as long term benefit liability. Accumulated leave obligations are estimated on the basis of actuarial Valuation. Long term benefit liability is not subject to same degree of uncertainty as defined benefit plan.

The bank has no further payment obligations once the contributions have been paid.

5.16 Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

✓ Bank as a lessee

Leases that do not transfer to the Bank substantially the entire risks and benefits incidental to ownership of the leased items are operating leases. Operating lease payments are recognized as an expense in the income statement **on a straight-line basis** over the lease term.

✓ Bank as a lessor

Leases where the Bank does not transfer substantially all of the risk and benefits of ownership of the asset are classified as operating leases. Rental income is recorded as earned based on the contractual terms of the lease in other operating income.

5.17 Foreign Currency Translation

Foreign currency transactions are translated into the NPR using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the profit or loss, except when recognized in other comprehensive income. Non-monetary assets that are measured at fair value are translated using exchange rate at the date that fair value was determined.

5.18 Financial Guarantee and Loan Commitment

In the ordinary course of business, the Bank issues performance guarantees, bid bond guarantees and advance payment guarantee. These guarantees are initially disclosed in the financial statement (within 'contingent liabilities') at guaranteed value. The premium received is recognized in the statement of profit or loss in net fees and commission income on a straight-line basis over the life of the guarantee.

5.19 Share Capital and Reserves

5.19.1 Share Capital

Financial instruments issued are classified as equity when there is no contractual obligation to transfer cash, other financial assets or issue available number of own equity instruments. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction net of taxes from the proceeds.

Dividends on ordinary shares classified as equity are recognized in equity in the period in which they are declared.

The share issue expenses which can be avoided for the issue was charged in the year of issue directly through equity and disclosed in statement of changes in equity. Tax impact is also disclosed.

5.19.2 Reserves

The reserves include regulatory and free reserves.

✓ General Reserve

20% of the net profit is set aside to general reserve until the reserve is twice the paid of share capital as per Banking Financial Institutions Act. The reserve is the accumulation of setting aside profits over the years.

No Dividend (either cash dividend or bonus share) are distributed from the amount in General/ Statutory Reserve.

25% of the revaluation gain on foreign currency is set aside to exchange equalization reserve as per Banking Financial Institutions Act.

✓ Assets Revaluation Reserve

Any Reserve created from revaluation of assets (such as Property & Equipment, Intangible Assets, Investment Property) shall be presented under this heading. Revaluation reserve is created for the property and equipment transferred from Bharghav Bikas Bank at Fair Value.

✓ Capital Reserve

The capital reserve represents the amount of those reserves which are in nature of capital and which shall not be available for distribution of cash dividend. The amount from share forfeiture due to non-payment of remaining amount for the unpaid shares, capital grants received in cash or kind, capital reserve arising out of merger and acquisition etc are presented under this heading.

✓ Special Reserve

Any special reserve that is created as per the specific requirement of NRB directive or special instruction of NRB are represented as special reserve. The amount allocated to this reserve by debiting retained earning account are presented under this heading.

✓ Corporate Social Responsibility Fund

The fund created for the purpose of corporate social responsibility by allocating 1% of Net profit as per NRB Directive is presented under this account head.

✓ Investment Adjustment Reserve

It is a reserve created on investment such as investment in subsidiary or unlisted investment in equity for more than two years as per the investment directive of Nepal Rastra Bank.

✓ Regulatory Reserve

The amount that is allocated from profit or retained earnings of the Bank to this reserve as per the *Directive of NRB for the purpose of implementation of NFRS* and which shall not be regarded as free for distribution of dividend (cash as well as bonus shares) shall be presented under this account head. The regulatory reserve of the bank includes the reserve net of tax created relating to Accrued Interest Receivable not

recovered till Paush end 2078. Reserve on Deferred Tax Assets, Non-Banking Assets, reduction in fair value of investment in equity below cost price, actuarial loss etc.

✓ Fair Value Reserve

The amount that is allocated from profit or retained earnings of the Bank to this reserve as per the *Directive of NRB for the purpose of implementation of NFRS* and which shall not be regarded as free for distribution of dividend (cash as well as bonus shares) shall be presented under this account head. The fair value reserve of the bank includes the reserve net of tax created relating to Market Value of Share investment.

✓ Actuarial Gain/(Loss) Reserve

The amount that is allocated from profit or retained earnings of the Bank both positive or negative to this reserve as per the *Directive of NRB for the purpose of implementation of NFRS* and which shall not be regarded as free for distribution of dividend (cash as well as bonus shares) shall be presented under this account head. This reserve includes actuarial gain/(loss) net of tax on defined benefit plan and long-term employee benefits.

√ Share Premium Account

Share premium account amounting to Nrs. 55,109,605 includes issue of share of Bhargav at premium to Nrs 2,465,454 & Share premium resulting from business combination amount to Nrs 52,644,151 is shown separately under share premium account at the face of the Statement of Financial Statement.

✓ Other reserve

Any reserve created with specific or non-specific purpose (except stated in above) are presented under thus by disclosing accounting heads.

5.20 Earnings per share

The Bank measures earning per share on the basis of the earning attributable to the equity shareholders for the period. The number of shares is taken as the weighted average number of shares for the relevant period as required by NAS 33 - Earnings Per Share.

There are no instruments, such as convertibles, that would require dilution of EPS, therefore basic EPS & diluted EPS are same.

5.21 Segmental Reporting

The Bank's segmental reporting is in accordance with NFRS 8 Operating Segments. Operating segments are reported in a manner consistent with the internal reporting provided to the bank's management, which is responsible for allocating resources and assessing performance of the operating segments. All transactions between business segments are conducted on an arm's length basis, with intra-segment revenue and costs being eliminated in Head Office. Income and expenses directly associated with each segment are included in determining business segment performance.

The Bank has determined segments based on the province of operation by the management for decision making purpose.

5.22 Interim Financial Reporting

Interim reports corresponding to the financial statements had been reported in accordance with the regulatory reporting requirements. Those statements have been published quarterly in national level newspaper.

6. Related Parties Disclosures

- 7. Dividends paid (aggregate or per share) separately for ordinary shares and other shares No Such transaction took place during this Period.
- 8. Issues, repurchases and repayments of debt and equity securities
 No Such transaction took place during this Period.

9. Events after interim period

No Such transaction took place during this Period.

10. Effect of changes. in the composition of the entity during the interim period merger including and acquisition

No Such transaction took place during this Period.

Disclosure as per Securities Registration and Issuance Regulation, 2073 Related to Rule 26(1) of Annexure 14 For 2nd Ouarter of F/Y 2078-79

1. Financial Statement

Statement of Financial Position and Statement of Profit or Loss as per Nepal Financial Reporting Standard (NFRS) has been published including key financial indicators and ratios along with this report. There has been no any related party transaction during the period.

Key Financial Indicators and Ratios:

Earnings per share : NPR 18.45 (Annual) P/E Ratio: 24.44 Times

Net Worth per share : NPR 136.33 Net Asset Value per Share : NPR 1,278.46

Liquidity Ratio : 24.44% Capital Adequacy Ratio :15.10%

2. Management Analysis

- a. Financial indicators during the period were satisfactory.
- b Growth of business in deposit and lending during the period remained stagnant primarily because of external factor like pressure in loanable fund as well as liquidity and lower than expected deposit growth. This has also hampered other income avenues and resulted in minimal increment in fees and other operating incomes.

c. There was no incident, which could have material effect on cash position, profit or cash flow position of the Development Bank during the period.

3. Details relating to Legal Action

- a. During the period there were no any cases that have been filed by or against Development Bank.
- b. No cases have been filed by or against the promoter or director of Development Bank for disobedience of prevailing laws or commission of criminal offence.
- c. No cases have been filed against any promoter or director for financial crime.

4. Analysis of Stock Performance of Development Bank

- a. Development Bank's share price and transaction are determined as per open market competition.
- b. Maximum, minimum and closing share price including total share transaction number and days of transaction during the period were;

Max. Share Price : NPR 538.00 Min. Share Price : NPR 333.00 Closing price of the Share : NPR 451.00 Number of days traded : 59 days

Total volume of trading of shares : 52,62,405 share (Source: website of Nepal Stock Exchange Limited)

5. Problems and Challenges

5.1 Internal

- Developing and retaining skilled manpower has been a constant challenge which needs to be managed carefully
- Beginning of third wave of Covid-19 where priority is going be safety and wellbeing of staff and customers thus having adverse effect on business growth.
- Increasing cost of operation and achievement of desired level of productivity

Safety and wellbeing of staff is given top priority and will be given equal priority in coming days. Various work process related changes will be implemented to achieve higher level of productivity. At the same time learning and development for all staff has been planned for and will be regular process for growth and motivation for staff.

5.2 External

- Management of liquidity and loanable fund has remained main challenge during the period because of less than expected growth in deposit
- Spread rate pressure because of increment in cost of fund
- Increasing cost for all especially borrowers is expected to have adverse effect on repayment capacity

The likelihood and early symptom that there may be third wave of Covid-19 is going to have some adverse effect on economic activities. Some sectors are expected to be hit harder. In this context maintaining quality of lending portfolio is going to be a challenge. At this time we shall adopt our strategy to manage assets quality accordingly. For economic vibrancy, resources need to be used in productive sector and we shall be continuing doing that with available fund. Additional avenues of fees income will be sought after and appropriate strategy will be adopted.

6. Corporate Governance

To meet the provision regarding Corporate Governance, Development Bank has strictly followed all the rules & regulation issued to BFIs through Unified Directives, Circulars, BAFIA, Companies Act, SEBON Rules & Regulation and all other rules/regulations issued to BFIs. Development Bank has setup different committees like Audit Committee, Risk Management Committee, Employee Benefit Committee, and Anti-money Laundering Committee which are active in their respective field and chaired by non-executive member of Board of Directors. Similarly Recruitment Committee, Assets Liability Management Committee and Corporate Governance Cell and other relevant committees are formed at staff level and are active in their respective field. Issues raised & recommendations made by NRB, internal & external auditor have been followed up strictly & in effective manner for better performance of Development Bank.
